Family Book Creator™

by Stefan Harms

Family Book Creator is a plugin for Family Tree Maker on Windows which turns your research into a detailed personalized book with just a few clicks. Different book types and languages are supported. You may create your book documents directly in word processor file formats (DOCX, DOC, RTF) or platform independent file formats (PDF, EPUB, JPEG, PNG) without the need of having Microsoft Word or any other word processor or PDF application installed.

Family Book Creator is able to create the following types of books:

- Ancestors of the home person
- Descendants of the home person
- Relatives of the home person
- Alphabetical family register
