

Family Tree Maker®

Resources for Societies

For genealogical societies large and small, and for Family Tree Maker user groups and SIGs, these resources can help keep your members up to date.

Door Prizes

A FREE copy of Family Tree Maker (\$89.95 value) as a door prize can help bring members out to your annual society meeting, or a meeting of a Family Tree Maker SIG or user group if your society has one.

Handouts and Flyers

On our societies website, you will find handouts and flyers that you can print out for your meetings. We can also send out professionally printed brochures for your events.

Presentations and Special Events

Our Family Tree Maker ambassadors conduct classes all year long, working with societies in the US and abroad. In virtual presentations we provide a first hand view of what's new with this beloved brand. Presentations have ranged

from small online events for a single society to our participation in large day-long conferences complete with handouts and special offers. To learn more, write to us at calendar@familytreemaker.com.

Webinars

When travel to your event is not an option we can appear at your event virtually from a projection screen at the front of the room. We'll bring special guest presenters, you bring the snacks. See you online!

User Group in a Box

All it takes is one interested Family Tree Maker user to start a user group in your area. We'll help get things started with our *User Group in a Box* starter kit, with newsletter and handout templates, free copies for reviews and door prizes, and a guide to making your first meeting a success. *Coming soon.*

User Group Directory

We are creating an online directory of Family Tree Maker SIG and user groups around the globe so Family Tree Maker users in your area can find your group.

How to get started

Just fill out the form on our society homepage at www.familytreemaker.com/society.
